Supportive Housing

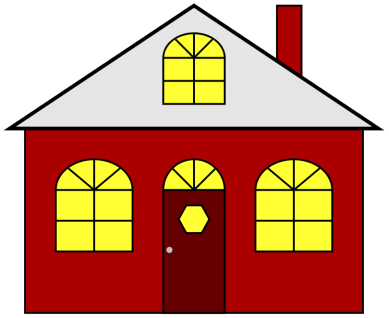
A Variety of Residences for the Region's Diverse Population



Not just a place to live

"Helping People. Changing Lives."

About

According to Census statistics, Orange County's population more than doubled between 1965 and 2009. Unfortunately, the availability of affordable housing has decreased. RECAP's Supportive Housing programs provide a variety of residences focusing on veterans, seniors, the disabled, and the homeless.

How it Works

A case manager is matched with each family and meets regularly, in-office and in-home, to help set goals to regain stability and self-sufficiency. Case managers support participants through

- Social service navigation
- Assistance with CPS/APS services
- Help replacing vital documents
- Finding clothes for a job interview
- Securing food
- Furthering education, finding job training
- Updating resumes & interviewing
