OAHU RESOURCE GUIDE

2013

INFORMATION PROVIDED BY THE DEPARTMENT OF PUBLIC SAFETY REENTRY OFFICE

BACKGROUND

2013

Department of Public Safety:

The Hawaii state Department of Public Safety (PSD) oversees the state's jails and prisons as well as a sheriff's division that provides law enforcement at state facilities, including court houses and airports. The mission of PSD is to provide for the safety of the public and state facilities through law enforcement and correctional management.

The department's operating budget for fiscal year 2011 was $232.4 million, with $214.6 million from the state's general funds. It has about 2,200 employees and is made up of three divisions:

> Administration: Handles everything from training and staff development, personnel management, management of the operating budget, and capital improvements program budget.
>
> Corrections: Oversees the state's jails and prisons. Represents 85 percent of the department's annual operating costs.
>
> Law Enforcement: Includes the sheriffs division and narcotics enforcement division.

The department oversees four (4) jails and three (3) prisons in Hawaii that imprison roughly 6,000 of the state's citizens. That includes approximately 1,500 prisoners in mainland facilities.

> Jails: Hawaii Community Correctional Center, Kauai Community Correctional Center, Maui Community Correctional Center, and the Oahu Community Correctional Center.
>
> Prisons: Halawa Correctional Facility, Waiawa Correctional Facility, and the Women's Community Correctional Center. All three prisons are located on the island of Oahu.

The department submits annual reports to the Hawaii Legislature on its various programs

About the Reentry Office:

The Reentry office is established within the Hawaii state Department of Public Safety. The Department's Reentry Works Special Project capitalizes on the synergy of reentry efforts initiated by the Department. In 2007, Act 8 established an offender reentry system to assist adult offenders in preparing for release and reintegration back to the community.

In 2009, Act 24 established the Reentry Commission to work with the Department of Public Safety in monitoring and reviewing the comprehensive offender reentry program. The purpose of this Act was to create the offender reentry office to oversee offender reentry, thereby restoring the purpose of the intake service centers to screen, evaluate, and classify admission of offenders.

In 2011, a request for approval to extend the Reentry Works Special Project was granted through June 30, 2013. Under the proposed enhancement, modifications were made to the initial reentry plan to reflect Justice Reinvestment Initiatives. The Reentry Works Special Project Enhancement proposes to use authorized, vacant Departmental positions to expand its existing reentry capacity and capability by developing and implementing a seamless and comprehensive approach to reducing recidivism, prison overcrowding, and associated costs in housing inmates on mainland facilities.

The planned enhancements would feature infusing evidence-based practices into case management and rehabilitation services for offenders; using risk-need-responsivity principles to guide the safe transition of offender's return to the community; targeting the specialized needs of offenders; and engaging the community in the Department's reentry initiative. Under the Department's plans for reentry, there is also an overarching need to use authorized staff positions to design, develop, and implement crime victim's assistance services; engender community support for the reentry initiative; and meet the increasing demands of the Justice Reinvestment Initiative.

In 2012, Act 76 established the offender reentry office within the Department of Public Safety to address the goals of Chapter 353H, a comprehensive offender reentry system, and reconstitutes the Reentry Commission with the added duty to ensure that the comprehensive offender reentry system is implemented as soon as practicable.

The Reentry initiative helps individuals make successful and permanent returns from incarceration. Thus, preparing incarcerated individuals for reintegration into the community through programs and services that reflect best practices and evidence-based results. Our goal is to provide offenders with greater opportunities to become successful while ensuring public safety and reducing recidivism.

Reentry Commission:

The Commission was convened in October of 2012 and consists of ten members. Three (3) members were selected by the Governor, of whom one would be a rehabilitated former inmate; three (3) members were selected by the President of the Senate; three (3) members were selected by the Speaker of the House; and the Reentry coordinator shall serve as an ex officio non-voting member. The Commission is to ensure that the comprehensive offender reentry system under 353H, is implemented as soon as practicable, and to provide programs and services that result in the release of inmates on parole when terms have been served, instead of delaying the release for lack of programs and services. In addition, the Commission would work with the Department of Public Safety in monitoring and reviewing the comprehensive reentry program, including facility educational and treatment programs, rehabilitative services, work furloughs, and the Hawaii Paroling Authority's oversight of parolees. The Commission may make recommendations where needed.

The Directory:

The creation of this directory was influenced by an Offender Workforce Development Specialist (OWDS) Training Initiative which promoted collaboration between criminal justice agencies and community organizations to increase positive offender employment outcomes. As a result of this training, participants acquired knowledge and skills required to deliver effective workforce development services. In addition to the training, specific workgroups were created to address barriers related to offender reentry. Hence, the workgroup that laid the groundwork for this directory is called, "Pacific Resource." This directory is one of many strategies that will assist individuals in making a successful transition from prison/jail to the community. The development of this directory would not have been possible without the partnerships from the following agencies: Hawaii State Legislature, Ho'omau Ke Ola, Lanakila Pacific, TJ Mahoney's, Salvation Army ATS, Hina Mauka, U.S. District Court Probation Services, University of Hawaii Practicum Programs, and the Department of Public Safety. Therefore, we would like to thank all those involved who worked tirelessly on this effort.

Visit your school counselor for help in applying for financial aid.

To receive federal student aid, you must meet the eligibility requirements listed on the Free Application for Federal Student Aid (FAFSA) website. WOMEN'S CLEAN & SOBER HOUSES

When looking for a clean and sober house, be sure your living arrangements will help your recovery. These are a few questions to ask:

- Cost?
- Can you meet possible roommates?
- Who is the team leader of the house?
- How many will be living there?
- How many in one room?
- What are the requirements for living there (i.e. rules, chores, meetings, bible study, etc.)?

Before signing any agreements, be sure to think about all the expectations the house has for its residents, and make sure that you are confident and willing to live by their rules. Always have a backup plan for your shelter needs.
