

# Veteran's Reentry Guides

All of the pdf files below were found on this page [https://www.va.gov/homeless/reentry\\_guides.asp](https://www.va.gov/homeless/reentry_guides.asp) of the US Dept of Veteran's affairs website. The page still exists, but all of the pdf's are 'empty'. Why did they not just delete this page? Might they update and reload new guides into these old locations? I think we should contact the VA to find out. **Why has the VA abandoned the veterans who are coming home from US prisons?**

This is the VA text from the page:

*Incarcerated Veterans Re-entry Guides contain information on resources and how to plan a successful reentry. Please select a state to view local re-entry resources for incarcerated Veterans.*

The guides were all made at different times. They are all older than 2015, when they were removed from the VA website...but I am hoping many of the organizations listed in their pages are still viable.

Please let me know if you find any information to bolster what I offer here!
